## WORK EXPERIENCE

---

### Magellan Health

Jan. 2020 – Present

*Senior Data Analyst*

*Remote*

- Developed and implemented a process for identifying, monitoring, and fixing discrepancies between multiple complex data sources to ensure data integrity
  - Identified and communicated root cause of discrepancies to relevant stakeholders
- Create reports, visualizations, and analysis using data from various sources using tools such as Alteryx, SQL, and Python
- Led implementation of a document management solution to improve the process surrounding management of client data
- Serve as a subject matter expert in matters related to drug data, formulary management software, data quality/integrity practices, ETL processes, and general process improvement

### Decision Resources Group

Dec. 2016 – Jan. 2020

*Solution Analyst*

*Overland Park, KS (Remote)*

- Responsible for process improvement, documentation, planning, and other interventions to provide solutions in areas struggling to adapt to a growing pharmacy data management software business.
  - Lead the efforts to audit and overhaul insufficient processes for quality assurance and ticket writing.
- Participate in identifying requirements for design and data model of future products by combining customer data, product knowledge, and industry experience.
- Ensure that the voice of the customer is heard in requirements gathering, documentation, development, and quality assurance processes.
- As part of a squad, responsible for the quality assurance of a code stream for one of our products.
- As part of a team, responsible for the maintenance of several clinical datasets.

### MeridianRx

Mar. 2015 – Sep. 2016

*Formulary Management Team Lead*

*Detroit, MI*

- Lead a team of five analysts managing formulary data for multiple clients across multiple lines of business for a mid-size PBM.
- Ensure that data was accurate, submission deadlines were met, clients were satisfied, and regulations were followed.
- Participate in documenting requirements for improvements to in-house formulary data management software.

## EDUCATION

---

### Western Michigan University

Graduated Sep. 2013

*Bachelor of Science, Behavioral Sciences*

*Kalamazoo, MI*

- Teacher's assistant for Applied Animal Behavior Practicum at the Kalamazoo County Animal Shelter
- Research assistant responsible for collecting data regarding procedural interventions at an adult care facility
